Our Facilities

Overview

The White House Nursery is a Day Nursery that caters for children aged three months to five years old. It prides itself on providing quality care for children from the moment they are dropped off, to the time they are collected.

The nursery was established in January 1997 and has had a constant flow of children and siblings since then. It is a small 22 place day nursery that is situated on the ground floor of a large detached house. The upstairs of the house is used for the staff, storage and has a self-contained flat. The nursery has a warm and friendly atmosphere and this with continuity of qualified staff ensure that the children can attach, bond and therefore develop to their full potential. A wide range of activities are available to enhance the individual child's development. Free flow play is encouraged between the indoor rooms, garden area and messy room to enable the child to follow their own interests. The nursery also provides weekly sessions from outside companies such as Super Star Sports, Tappy Toes and Drama Class.
